

## About CSL Behring

**CSL Behring** is a global biotherapeutics leader driven by its promise to save lives. Focused on serving patients' needs by using the latest technologies, we develop and deliver innovative therapies that are used to treat people with life-threatening medical conditions and to help them live full lives. The parent company, CSL Limited, is headquartered in Melbourne, Australia.

In May 2014, CSL selected Lengnau in the Canton of Bern in Switzerland as the location of a new manufacturing facility to support the commercial production of our promising novel therapies. In May 2020, CSL announced the strategic partnership with Thermo Fisher Scientific, the world leader in serving science. Thermo Fisher will lease and operate the Lengnau state-of-the-art biotech manufacturing facility once construction is completed in 2021. It is anticipated that employees at the site who are engaged for the operation of the site and the commercial production of our therapies in Lengnau will automatically transfer to Thermo Fisher Scientific once construction is complete. Today, more than 200 employees work in Lengnau.

You can find more information on the strategic partnership with Thermo Fisher [here](#) and some more information about the prospects of a future career with Thermo Fisher [here](#).

We are currently recruiting for a

## Business Analyst, Master Data (m/w/d)

The position holder ensures Master Data business processes are effectively and reliably configured and documented in ERP (SAP S4) system and databases. They are the key interface of SAP users on system support, training and documentation. They contribute to and/or lead operational excellence projects relevant to business processes information systems and documentation, including system functionalities and interfaces with wider plant systems.

### RESPONSIBILITIES
